EDUCATION

2023-2026 RWANDA CODING ACADEMY

- Software Programming

SKILLS

- Spring Microservices
- TypeScript-Express API development
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Basics)
- Kinyarwanda (Fluent)
- German (Basics)
- Spanish (Intermediate)

DUFITIMANA THEONESTE

BACKEND DEVELOPER

THEONESTE – DEDICATED BACKEND DEVELOPER AND PENETRATION TESTER

I am Theoneste, a passionate backend developer and skilled penetration tester with a strong focus on building secure, efficient, and scalable systems. Hailing from Rubavu, Rwanda, I take pride in leveraging my technical expertise to solve complex challenges and ensure robust application security.

WHAT I CAN

- Developing APIs** using Spring, Node.js etc.. 2030 - PRESENT
 - API Development: Design and implement secure, scalable, and high-performance APIs using frameworks such as Spring Boot and Node.js, ensuring seamless integration and functionality.
 - Security & Scalability: Focus on building robust APIs with strong security measures, including authentication, authorization, and data protection mechanisms. Leverage cloud platforms for scalability and reliability.
- User interfaces** using Next.js, and React.js 2025 - 2029
 - Develop and maintain strong relationships with partners, agencies, and vendors to support marketing initiatives. Monitor and maintain brand consistency across all marketing channels and materials.
- Database Management** Postgresql and MongoDB, MySQL etc.. 2024 - 2025
 - Database Design and Development: Design, implement, and maintain scalable and efficient relational (SQL) and non-relational (NoSQL) databases, such as PostgreSQL, MySQL, MongoDB, and DynamoDB, to support application requirements.
